

Energy Play Series

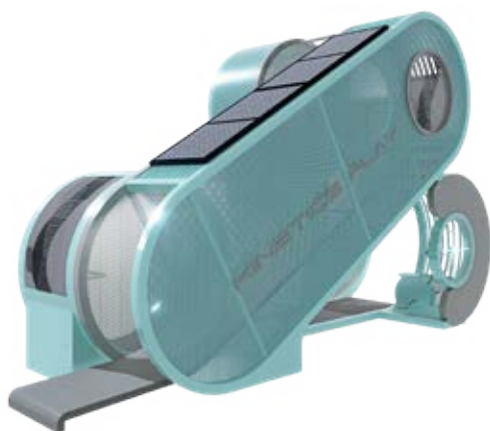

Product information

Product description

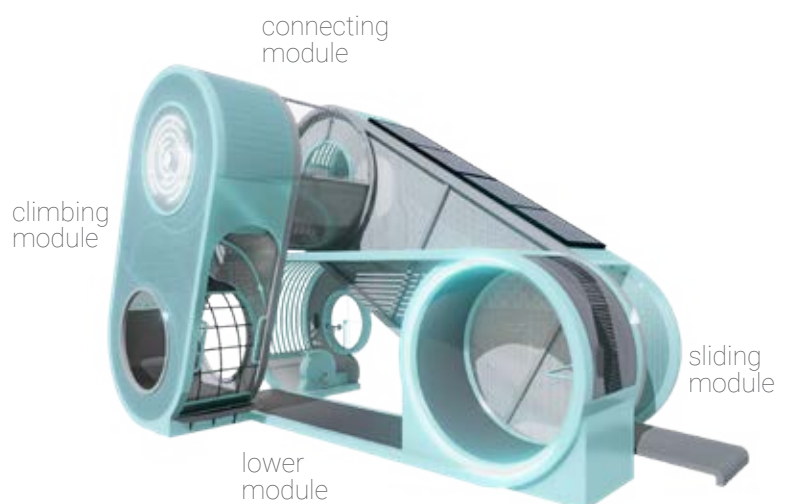

Medium Module

Inspired by the idea of energy sustainability, this design aims to raise awareness by creating an interactive play space where children can be inspired through act-and-react play experiences. These experiences stimulate interest in understanding the concept of sustainability. It seeks to spark curiosity, foster community connections and educate people on sustainability.

Category	: Playground
Age group	: 5-12 years old
Product Code	: KP200
Sizes (mm)	: L7300 x H4470 x W3410 mm

2.SLIDING MODULE / ENCLOSED STAINLESS-STEEL SLIDE

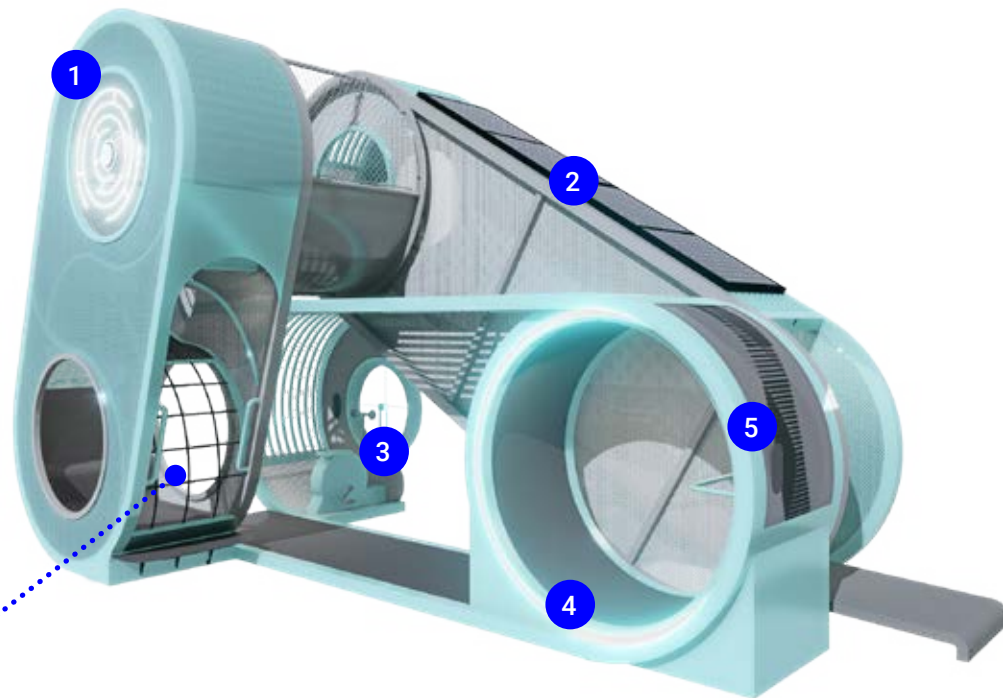

- Interior facade to be seamless.
- Transition platform with guardrail.

Solar panels

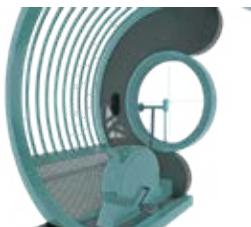

1.ENERGY HANK-CRANK

Energy is generated by user's kinetics energy, by rotating the hand crank. Energy is then transformed into interactive LED light symbol.

- Climbing net
- wavy crawler to top

3.ENERGY LEG CYCLE

User cycles on the leg pedal to generate electricity to activate hologram fan.
- Hologam fan + LED light effect

4.ENERGY HAMSTER WHEEL

Energy is generated by user's kinetic energy, by running on the hamster wheel. Energy is then transformed into interactive LED light around the structure.

5.DYNAMIC HAMSTER WHEEL

Energy is generated by user's kinetic energy, by running on the hamster wheel. Energy is then transformed into interactive motion graphic displayed at the windows.
