Moon Cycle (MC100)

Product information

Product description

Moon Cycle is Inspired from Moon Gate, a kind of Chinese architectural garden gate.

A Moon Gate is a circular opening in a garden wall onto a path leading through a large garden or transition from streets outside into the Private House.

Not only are the physical environments in distinct contrast with one another, but the mental state of mind is also shifted.

The design objective is to create a space for people to gather and relax that provide sense of home and security to enjoy intimate social times.
