

Product description

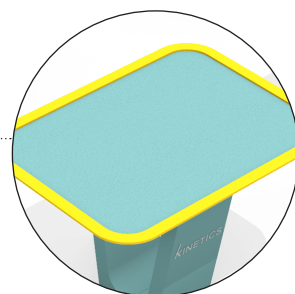

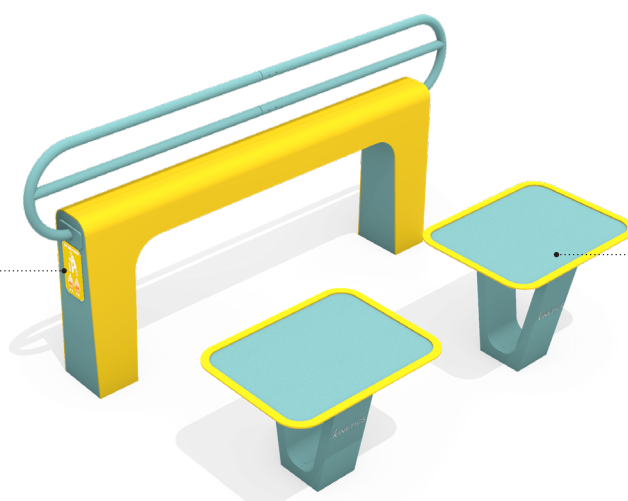

The **Sit and Stand** is an inclusive outdoor fitness equipment designed to help frail older adults safely practice one of the most essential daily movements—transitioning between sitting and standing. Featuring dual seat heights and two handle levels, it accommodates different user abilities while providing stable support throughout the exercise. The open, wheelchair-friendly design with a wide, comfortable seat allows easy access and safe transfers. Regular use helps strengthen lower-limb muscles, improve balance and coordination, enhance functional mobility, and build confidence for independent daily living.
