

## Dune Towers

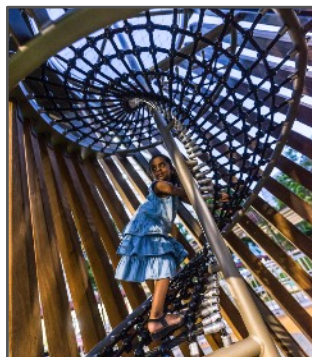

## Product Information

### Product Description

The Dune Towers are two large twisted towers, clad with diagonal beams of timber. The cladding offers sneak peaks in to the interior and plays a game with darkness and light. The interior of the towers consists of various climbing routes with plateaus and climbing ropes, that allow for different routes and difficulty levels. One of the towers has a 'double skin', that offers shade and creates a transparent effect.

A large slide connects the upper level with the ground. At three meters in height, the towers are interconnected with a bridge, that has the same twisted form as the towers. Here, children can experience the height through the kaleidoscopic dazzling effect of the timber planks.

Category:	: Treehouse Playground
Age group	: 6-12 yrs old
Sizes (mm)	: 12100L x 4650W x 3340H
Safety area	: 90 m <sup>2</sup>
Critical Fall height	: 1.2m
Maximum users	: 30 users

Subject to change without prior notice
